- cost is \$36.00 plus shipping for 5 test strips or \$115.00 plus shipping for 25 strips.
- Includes:
 - ImmunoStrips
 - Sample bags containing SEB1 buffer
 - [User Guide](#)

If you are concerned that you may have an infected plant and do not want to buy 5 or more test strips from Agdia, testing is available on single plants at \$5.00 per plant by Barry Ankney, the CIHS Webmaster, and co-owner of White Oak Nursery.

You can call Barry at 309 369-2065 or email hostas@whiteoaknursery.com. You will need to arrange to bring your plant sample to a meeting or deliver it to Barry. This testing is provided as a service to our CIHS Club Members. Barry does not make any profit from the testing. The \$5.00 fee just covers the cost of the test strip.
